OF REAL BREVITY

EXPECTED TO REVIEW RECORD
OF ADMINISTRATION
IN PAST

PROMISE OF FURTHER TAX RE-
DUCTION AND RE-
FORM

(By United Press)
Washington, Feb. 25.—President Coolidge has completed the draft of his inaugural message and is now paring it down to his ideal of brevity in state papers. After eliminating all matter he deems advisable, the message will take more than a half hour to deliver.

It will review, it is believed, the record of the administration in the past and the policies to govern in the next four years. It will be a studied expression of the views of the executive and contain this matter:

1. Re-affirm belief in the further arms limitation for world's peace and reference to the second arms conference to be called in America.

2. General views of the administration on foreign affairs, the future foreign policy effective after the resignation of Secretary Hughes on March 4.

3. Promise of administration of further tax reduction and tax reform, and the proposed calling of an extra session of Congress in September to consider such matters.

4. In general terms a reiteration of the conservative policy and its philosophy which contributed so largely in the election of Coolidge.

Copy of the inaugural message may not be in the printer's hands until the end of the week.

Women Frame Bill to
Protect State Flower

St. Paul, Feb. 25.—The two women members of the legislature, Reps. Mabeth Hurd Page and Hannah Kemper, want the state flower protected.

They introduced a bill for this purpose in the house late yesterday. The flower is commonly known as the lady slipper or moccasin flower. Its botanical name is *Cypripedium colceolum*.

The bill makes it unlawful to sell or buy any blossom, root, stalk or part of any variety of the flower. It also is a misdemeanor for any person to pick or have in possession at one time more than six blossoms of the flower.

CONFERENCE REPORT
ON POSTAL SALARIES
BILL IS ADOPTED

Washington, Feb. 25.—The conference report on the bill covering postal salaries and rate increases was adopted by the house by a vote of 370 to 5. The bill has seen modification by senate and house. Its rate increases are such as to insure an added \$60,000,000 in revenue.

Action on the bill must now be taken by the senate before it is sent to the president. A poll to reduce the 2 cents fee increase on parcel post from 2 cents to 1 cent failed by a vote of 285 to 55.

REFUNDMENT BILL
CONCERNING HIGHWAYS

St. Paul, Feb. 25.—The public hearing before the senate committee on highways, for the purpose of discussing the bill introduced by Senator Adams of Duluth, providing for the issue of refundment bonds to take over the highway bonds issued by the various counties from time to time for highway purposes, started at 2 o'clock this afternoon.

SUCCESSOR TO
JUDGE MCGEE

St. Paul, Feb. 25.—The bill giving President Coolidge the right to appoint a successor to the late Judge McGee in federal court is expected to pass the house late today. It has already passed the senate.

SEN. McCORMICK
DIED SUDDENLY
IN WASHINGTON

SUCCUMBS TO ATTACK OF GAS-
TRIC HEMOR-
RHAGE

WAS FOUND DEAD IN HIS BED AT
HIS HOTEL
ROOM

(By United Press)
Washington, Feb. 25.—Senator Medill McCormick of Illinois died suddenly here today at his hotel following an attack of gastric hemorrhage.

McCormick had appeared in good health. The attack is believed to have seized him at 9:30 o'clock this morning and he died almost immediately. Mrs. McCormick was notified and is on her way from Chicago.

Mr. McCormick was closing his term, which would have been terminated in a week. In the recent election he was defeated by his opponent, Charles F. Deneen. McCormick had been mentioned as ambassador to Germany.

He entertained a few friends in his room yesterday, said W. A. Brese manager of the hotel. He arose as usual at 8 o'clock this morning, said the manager. Shortly after 9 a. m. no one answered his telephone call. The manager investigated and found him dead in bed. A doctor, summoned, said he had been dead an hour. Some evidence of hemorrhage appeared in the room.

No comments were made on the floor of the house or senate this morning, as leaders wished to allow the relatives time to be notified.

SPOKE OF FEELING
ILL YESTERDAY

Chicago, Feb. 25.—In a state bordering on collapse, the widow of Senator McCormick engaged accommodations on a train to Washington today. She had received two long distance calls from the senator yesterday and in the last one he referred to being ill.

She telephoned a newspaperman of Washington, a friend of the family, to see Mr. McCormick.

SENATE PAYS TRIBUTE
TO DEAD SENATOR

Washington, Feb. 25.—Senators Borah and McKinley informed their colleagues of the death of Senator McCormick. Senator McKinley communicated with the widow of the senator, drew a resolution and presented it in the midst of a debate this afternoon, expressing sorrow and condolences and advising adjournment of the senate as a mark of respect.

"It was a great shock to me," said Senator McKinley. "Senator McCormick was a man of high character and a thorough student of national affairs."

PRES. EBERT'S
RECOVERY TAKES
A NORMAL COURSE

(By United Press)
Berlin, Feb. 25.—The recovery of President Ebert is pursuing a normal course. His temperature and general condition are reported satisfactory. He passed a fair night. At 1 a. m. he was given a beaker of lemonade.

The United Press, however, is conservative in its reports and holds that press reports from official sources are over-optimistic in tone. In any operation, the after-effects are to be watched most closely and there are ever hovering over many cases, perilous possibilities, against which the surgeons are closely guarding.

WORKERS FIGHT
WAGE REDUCTION,
SAYS PRES. GREEN

HEAD OF A. F. OF L. ANNOUNCES
POLICY TO BE
AHERED TO

WHAT HURTS ONE INDUSTRY,
HURTS ALL, HE
CLAIMS

(Copyright, 1925, by United Press)
Washington, Feb. 25.—Wages must not be reduced! Workers must fight every move towards reduction, William Green, president of the American Federation of Labor, said today.

Attacking "some of the important employers in the New England textile industry who are engaged in an attempt to cut wages," Green, in an interview, warned against similar attempts in other industries and declared that the wages of all workers depended upon the success of the employers in this first move.

"Workers must fight every attempt to reduce wages; if the wages of carpenters are reduced, carpenters buy textiles, and the wages of textile workers are reduced," said Green. "Textile workers will have less money to buy commodities produced by other industries; they eat poorer food; they make the old shoes last longer, burn less coal or no coal at all. So it goes, and every reduction of wages, in the long run, increases unemployment."

"Unemployment has steadily receded before the advance of the trade union movement, which has reduced hours of labor, raised the rates of pay, fostered the development of machinery and taught the workers to demand and get better conditions and higher standards of living."

Unions work constructively for the good of mankind by obtaining wage increase for workers, Green said. "To a large extent the history of misery and despondence is written in the record of wage reduction," he stated.

"To a much greater extent the record of happiness, well-being, prosperity and growing civilization is written in wage increases. Just a few months ago the U. S. Steel Corporation raised wages. The reason does not matter much. The effect was magnificent. It made for human happiness."

"Humanity was given a fairer chance when the carpenters' union, years ago, stood out from the ranks and demanded and got the 8-hour day. The United Mine Workers took the breaker-boys out of the mines and gave slaves a chance to become men. The International Typographical Union has saved thousands of lives by the regulations it has induced employers to accept."

"How feeble and ignoble a contribution it is when employers come offering reductions of wages!"

"It has not yet been thoroughly learned that every industry that reduces wages hurts every other industry."

"Today it is the textile workers who are being attacked. Tomorrow it may be some one else. The workers must stand and fight. If employers in the textile industry can reduce wages, then other employers, equally foolish, will attempt the same policy."

"Experts have been predicting a prosperous year; everybody hopes it will be; but 1925 is going to be a good year only on condition that the industrial world recognizes the rights of the workers to fair wages."

ANNIVERSARY
MESSAGE OF
PRES. E. W. HILL

READ TO ASSEMBLY BY LEVI
JOHNSON OF EDUCATION-
AL COMMITTEE

JOHN F. WOODHEAD PRESIDED IN
ABSENCE OF PRESIDENT
W. H. GEMMELL

At the anniversary program given Tuesday by Brainerd Rotary, John F. Woodhead presided in the absence of President W. H. Gemmell. The latter attended the St. Paul Rotary club meeting and then went on to Winnipeg as the local club's delegate to attend the Goodwill meeting and banquet there on February 25.

Levi Johnson, of the educational committee, read the "Anniversary Message," by Everett W. Hill, president Rotary International 1924-1925, as follows:

"To promote a common understanding among men—regardless of race, creed, nation or political belief—and in this common understanding shall rest a fellowship so deep, so secure, so thorough that the growth from it shall be practical good-will and sound international amity—that is Rotary International's mission on earth. That is what has bound together, with irremovable bonds of friendship and brotherhood, 103,000 men in nearly two thousand Rotary clubs in twenty-eight nations.

"You who are Rotarians, you who have subscribed to sublime principles of unselfish service that find their basis in the fundamental philosophy of at least nine of the greater religious faiths—you are not living unto yourselves as members of your own local clubs or as citizens of your particular nation. You are members of Rotary International, world-wide in its actual organization.

"More than that—Rotary's great mission with you is to help you find your place in your community and to see that you occupy that place and contribute your share of individual service to the general good. Thus, each Rotarian in the world is an individual broadcasting station. Every conscious or sub-conscious action of every Rotarian in his business, civic and personal contacts every minute of every hour of every day of the year is a message broadcasted to the world on a universal wave length that tells how truly and how sincerely he is living up to the principles of service to mankind—how much he, as an individual, is doing to promote or retard our great objective of international understanding, good-will and friendship.

"Any man who creates a feeling of ill will among communities, any man who engenders distrust in the good intention of men, any man who excites class hatred, any man who stirs up enmity among nations or races is a traitor to mankind, a traitor to his country and a traitor to his God.

"And that is why I say to Rotarians that you are something more than members of a local club. You are members of a world-wide brotherhood. What you, a member of the Bangor or Toronto or London or Paris Rotary club may do today or say today in your office, may be reflected in Shanghai or Auckland or Johannesburg a few weeks hence. Yours is a great responsibility as well as a great privilege.

"And in this connection, please do not overlook the fact that no comprehensive survey of the development of the Rotary ideal of service is complete with a statement of what Rotary alone has done with it. For the anniversary we celebrate each year is the anniversary of the birth of an idea, rather than the anniversary of the birth of a single organization. What we Rotarians call the Rotary idea is today being carried forward in a splendid way with various modifications of detail, but none in principle and purpose, by Kiwanis, Lions, Exchange, Gyro, Civitan, Optimist—a dozen organizations with an aggregate membership of approximately half a million earnest men. "How feeble and ignoble a contribution it is when employers come offering reductions of wages!"

"It has not yet been thoroughly learned that every industry that reduces wages hurts every other industry."

"Today it is the textile workers who are being attacked. Tomorrow it may be some one else. The workers must stand and fight. If employers in the textile industry can reduce wages, then other employers, equally foolish, will attempt the same policy."

"Experts have been predicting a prosperous year; everybody hopes it will be; but 1925 is going to be a good year only on condition that the industrial world recognizes the rights of the workers to fair wages."

REORGANIZATION STATE GOVERNMENT

INTRODUCED IN SENATE SLIGHT-
LY REVISED OVER HOUSE

CONSTANTLY IMPROV-
ING

(By United Press)
Paris, Feb. 25.—Gloria Swanson, noted film actress, is reported out of danger, according to the bulletin issued at 10 A. M. by her physician, Dr. Vandescal. Her temperature was reported 37.2 Centigrade, pulse 72. The actress spent a quiet night.

Her husband, Marquis de la Courderay, telephoned assurance of her improved condition to his friends.

Large Appropriation Bill Passed by Senate

(By United Press)
St. Paul, Feb. 25.—The senate passed the first of the large appropriation bills approving \$7,599,000 for two years maintenance of the board of control and its institutions. This sum is \$765,000 less than was appropriated by the 1923 legislature.

Senator A. J. Rockne, chairman of the senate appropriations committee, urged a speedy passage of the measure and said it represented very moderate demands.

GENERAL CONTRACTORS CONVENE IN ST. PAUL

(By United Press)
St. Paul, Feb. 25.—The Northwest branch Association of General Contractors convened here this morning. J. A. Baxter, vice president of A. Guthrie Co., was installed as president, a mail ballot having previously been taken.

The chief speaker in the afternoon was Col. Brittin, industrial director of the St. Paul association, who told of past work and plans for the future. Other speakers were J. F. Ebersole, assistant federal reserve bank agent, and Commissioner Wenzel of St. Paul.

INVITE HOUSE TO VISIT DULUTH AND GRAND RAPIDS

St. Paul, Feb. 25.—House legislators were invited to take a free trip to Grand Rapids and Duluth with the promise that all expenses would be paid in the jaunt. Representative Herried issued the invitation for Grand Rapids and Representative O. W. Johnson for Duluth.

ANNIVERSARY MESSAGE OF PRES. E. W. HILL

READ TO ASSEMBLY BY LEVI
JOHNSON OF EDUCATION-
AL COMMITTEE

JOHN F. WOODHEAD PRESIDED IN
ABSENCE OF PRESIDENT
W. H. GEMMELL

At the anniversary program given Tuesday by Brainerd Rotary, John F. Woodhead presided in the absence of President W. H. Gemmell. The latter attended the St. Paul Rotary club meeting and then went on to Winnipeg as the local club's delegate to attend the Goodwill meeting and banquet there on February 25.

Levi Johnson, of the educational committee, read the "Anniversary Message," by Everett W. Hill, president Rotary International 1924-1925, as follows:

"To promote a common understanding among men—regardless of race, creed, nation or political belief—and in this common understanding shall rest a fellowship so deep, so secure, so thorough that the growth from it shall be practical good-will and sound international amity—that is Rotary International's mission on earth. That is what has bound together, with irremovable bonds of friendship and brotherhood, 103,000 men in nearly two thousand Rotary clubs in twenty-eight nations."

"You who are Rotarians, you who have subscribed to sublime principles of unselfish service that find their basis in the fundamental philosophy of at least nine of the greater religious faiths—you are not living unto yourselves as members of your own local clubs or as citizens of your particular nation. You are members of Rotary International, world-wide in its actual organization."

"More than that—Rotary's great mission with you is to help you find your place in your community and to see that you occupy that place and contribute your share of individual service to the general good. Thus, each Rotarian in the world is an individual broadcasting station. Every conscious or sub-conscious action of every Rotarian in his business, civic and personal contacts every minute of every hour of every day of the year is a message broadcasted to the world on a universal wave length that tells how truly and how sincerely he is living up to the principles of service to mankind—how much he, as an individual, is doing to promote or retard our great objective of international understanding, good-will and friendship."

"Any man who creates a feeling of ill will among communities, any man who engenders distrust in the good intention of men, any man who excites class hatred, any man who stirs up enmity among nations or races is a traitor to mankind, a traitor to his country and a traitor to his God."

"And that is why I say to Rotarians that you are something more than members of a local club. You are members of a world-wide brotherhood. What you, a member of the Bangor or Toronto or London or Paris Rotary club may do today or say today in your office, may be reflected in Shanghai or Auckland or Johannesburg a few weeks hence. Yours is a great responsibility as well as a great privilege."

"And in this connection, please do not overlook the fact that no comprehensive survey of the development of the Rotary ideal of service is complete with a statement of what Rotary alone has done with it. For the anniversary we celebrate each year is the anniversary of the birth of an idea, rather than the anniversary of the birth of a single organization. What we Rotarians call the Rotary idea is today being carried forward in a splendid way with various modifications of detail, but none in principle and purpose, by Kiwanis, Lions, Exchange, Gyro, Civitan, Optimist—a dozen organizations with an aggregate membership of approximately half a million earnest men. The Bay Lake farm bureau unit met on Saturday afternoon at the Bay Lake school. About one hundred were in attendance.

The activities of the day started with a delicious chicken dinner, served by the ladies. The young women who served were attractively attired in Martha Washington costumes.

The program which followed the dinner was a Washington's birthday program, staged in part by the school children. Rev. E. A. Cooke and Superintendent W. C. Cobb of Brainerd gave addresses on the life of Washington.

This meeting was the most successful of any held by the club this season, and demonstrated the interest which the members hold in their organization.

"Safety and Service"

The Pathway to Health

Few people sicken suddenly—most are ailing for days and weeks. Cutting off the Proper Nerve Supply leaves the system feeble.

Many, now so run-down that they think they must quit business—by spending a little time daily or tri-weekly in taking Chiropractic Adjustments might work on and find themselves emerging back to health.

GAME CONSERVATION IS CHAMBER TOPIC

Representatives of Izaak Walton League to Address Chamber and Local Sportsmen

LADIES ARE INVITED, TOO

Four Reels of Motion Pictures Depicting Wild Game in Minnesota Shown at Theatres

A very interesting and instructive meeting is planned for this Wednesday evening when local sportsmen and the Chamber of Commerce hold a joint session, to hear representatives of the state department of the Izaak Walton League.

Henry I. Cohen, who is deeply interested in the organization of a local chapter of the League, states that the committee is extending a cordial invitation to the ladies of the city to attend tonight's meeting at the Chamber and also to view the motion pictures to be shown at the Lyceum theatre afterward.

This is the regular meeting of the Chamber of Commerce, but that association will make its business session very brief, so that the bulk of the meeting may be turned over to the Izaak Walton League for its speakers who arrived from Minneapolis this afternoon.

Included in the official party are Howard Selover, Col. Mel Nyman and Dr. H. A. Morris, the principal speakers on tonight's program. They were met at the train by a committee from the chapter of the league now in the process of organization, together with several from the local Lions club.

The visitors brought with them four reels of motion pictures depicting wild game life of Minnesota, and these were shown at the New Park at four o'clock at a free matinee for school children.

The Minneapolis men will be the guests at the regular weekly luncheon of the Lions club tonight, preceding the meeting at the Chamber. The pictures will be shown at the Lyceum after the Chamber meeting, and are free to all. It is hoped that a very representative number of local citizens will be present, both at the meeting and at the theatre.

LIONS CLUB FROLIC

Milwaukee Club to Put on Program Broadcast Tonight by WHAD

Members of the local Lions club and any others who have radio receiving sets are urged to tune in on WHAD at 8:15 o'clock this Wednesday evening, at which time the Milwaukee, Wis., Lions club will broadcast a Lions club frolic.

WHAD is the powerful new Marquette University and Milwaukee Journal station, said to give coast to coast reception on a wave length of 275 meters.

Arrangements are being made with B. E. Dunham of the Brainerd Electric company, and Asher Taylor, of the Taylor Sales Service, to receive this program at their places of business, so that those who do not have radio sets may "listen in" at either business house.

As to just what this frolic will consist of could not be learned but the Milwaukee Lions club announces that there will be several pleasant surprises in store for all who tune in on WHAD. In the meantime members of the local club are hoping that atmospheric conditions will be favorable to a good reception of this program.

Lively's stock of Ford parts is complete in every detail. Open day and night. 98tf

Norwegian-Danish League

The Luther League of the Norwegian-Danish Lutheran church will be entertained on Thursday evening, February 26th, by Mrs. J. Huseby and Mrs. Paul Dybvick, in the church parlors. The following program will be rendered:

Piano duet—Misses Eunice Paulson and Alice Anderson.

Musical selection—Messrs. Sargendal, Ness and Moe.

Address—Rev. O. L. Bolstad.

Vocal solo—Mrs. E. W. McCulloch.

Piano duet—Misses Eunice Paulson and Alice Anderson.

A large attendance is desired and visitors are welcome.

Special Lenten Services

Special Lenten church services will be held at the Bethlehem Evangelical church, corner Bluff and Main, every Wednesday evening at 8 o'clock. Everyone is cordially invited to attend these services.

FIRST CANDIDATE FOR MAYORALTY

George A. Cain of 821 Mill Avenue Northeast, Decides to Enter Race

RESIDENT OF CITY 22 YEARS

Has Represented His Ward as an Alderman for the Past Two Years

George A. Cain is the first to throw his hat in the ring for the office of mayor of the city of Brainerd. Mr. Cain's name has been urged by a number of his friends for some little time, but it was only this morning that he definitely decided to enter the race.

Mr. Cain resides at 821 Mill avenue, Northeast. He has been a resident of the city for the past 22 years and has represented his ward as alderman for the past two years. He has always taken a very active interest in city affairs. For the last six years he has been manager of the Angel flour and feed store.

Verner Anderson and Christ Elvig of Northeast Brainerd are seeking the nomination for alderman from the Third ward to succeed A. D. Peterson.

It has been reported that Aldermen V. E. Quansrom of the Fourth ward and C. G. Holmstrom of the Fifth ward, will be candidates for reelection. Other aldermen have not as yet made a statement as to whether or not they will enter the race.

Visited Rotary Clubs

Past President Harry F. Michael referred to his Chicago visit where he heard International President H. H. speak on "Rotary Education" February 10. Many great leaders of Rotary were present, including Paul Harris, founder. A group of new members were being instructed in the principles of Rotary.

Mr. Woodhead told of his visits at Fort Worth Texas and Los Angeles, Rotary and at a future meeting will tell of methods used by the clubs to stimulate attendance and growth.

F. W. Wieland and E. O. Webb, in attendance at St. Petersburg, Florida, Rotary club, wrote of the program put on entirely by Canadian Rotarians visiting the resort. St. Petersburg club with some 60 members, all present, entertained close to 200 guests.

PRE-LENTEN DANCE OF ELKS

Proves a Notable Success, Attracting Large Attendance of Young and Old Folks

HEDSTROM ORCHESTRA PLAYS

Purple and White Decorations and Tiny Illuminated Christmas Trees in Novel Settings

The pre-Lenten dance given by the Elks Monday evening proved a huge success and attracted a large crowd of young and old dancers. The decorations as planned by Chairman Bert Boynton and carried out by a corps of 14 assistants laboring days previously, were most artistic and carried the Elks colors of purple and white suspended in graceful festoons from ceiling center to side walls, with the center of attraction near the musicians' stand a set of tiny Christmas trees elaborately decorated and carrying purple and white electric lights.

The music was fine, being provided by the Hedstrom orchestra which played with its usual pep. Floor arrangements were most satisfactory and this last dance of a series given to raise money for the Elks state convention fund has proved to be the most successful in the history of the lodge.

Women keep asking us WHY is the Maytag is so much faster than other washers

The answer is the Gyroform principle gets more work out of the soap.

By sucking the suds down through the water a super-soaping mixture is produced. And this, the Gyroform action forces, with quick, thorough efficiency, through the meshes of the clothes.

No other principle uses soap and water with such scientific mastery.

But speed is only one of the features of this washer. Its thoroughness and care are equally as amazing—equally as unrivaled.

Try the Maytag. No obligation on your part—no trouble to us. We will bring it right to your home any day you wish. Wash with it—and remember, if it doesn't SELL ITSELF, don't keep it.

YOUR FIRE INSURANCE

THE Duluth Herald brings up a most pertinent matter in home fire insurance and that is: Are you carrying as much fire insurance as you should on your household goods and personal belongings?

And if the answer is frank, and follows a little study, it is something like a hundred to one that it will be "No, I am not."

Most people carry adequate insurance on their household goods, largely because it seems rather a small matter which both the insurance agent and the insured are likely to neglect. In many cases the insurance was taken out many years ago, and carried all this time at the same amount. In the meantime prices have gone up and the cost of replacing the household equipment if it is burned has greatly increased. In the meantime, too, much has been bought; new pieces of furniture, new rugs, new pictures, new books, new bric-a-brac, new dishes, and so on.

Is this new stuff covered by your fire insurance policy? Probably not; ten to one it is not. Here is a profitable exercise for Friend Husband and Friend Wife; take an inventory of the household goods from cellar to garret, and from kitchen to garage, and put a fair price on each item. Foot it up. Compare the total with the total insurance you are carrying on it. Remember that if there were a fire you would have to replace most of it with new.

And if you find your insurance total to be anywhere near seventy-five per cent of actual value that you should carry, you are one in a hundred, maybe one in a thousand.

HUMAN FUEL

UNDER the heading "And Still More Human Fuel," the St. Paul Daily News commented on the recent disaster at Sullivan, Indiana, where a coal mine explosion claimed 51 miners.

It quotes the United States bureau of mines as saying: "Investigations carried on by this bureau for more than 10 years have demonstrated beyond question of doubt that spreading of coal mine explosions can be prevented. Responsibility rests with the mine managements."

But it costs a little money to sprinkle coal mines with rock dust, and that little money might come from profits. Hence we have a price list, the cost of our fuel, such as this:

"Crosby, Minnesota—42 lives.
"Shankstown, Pennsylvania—37 lives.
"Johnson City, Illinois—34 lives.
"Dawson, New Mexico—125 lives.
"Kammerer, Wyoming—100 lives.
And so on! It is the cost of coal.

For the benefit of the St. Paul Daily News, we wish to state that the Crosby mine is an iron mine and no coal is mined there. The commission investigating reported no explosion there.

ALL FORCES COOPERATING

REPRESENTATIVES of all St. Paul service clubs met Tuesday to arrange a plan to boost St. Paul. The meeting was called by the St. Paul Association and was open to all members of service clubs.

More than 800 members were notified by the civic affairs chairmen of the various organizations. Proposals for the betterment of St. Paul were discussed and each civic club was assigned some phase of community work to direct during the coming year. Among the clubs represented were the Ashlar club, Business & Professional Men's association, Conopus club, Cooperative club, Exchange club, Kiwanis club, Lions club, Optimist club, Professional club, St. Paul Association of Office Men, St. Paul Engineers' society, Rotary club, St. Paul Sales Managers' association, Torch club, Town Criers club, Transportation club.

The idea of the cooperation of Brainerd service clubs with the Chamber of Commerce here was brought up at the last meeting of the Rotary club and further elaborated on at a meeting of the Lions, addressed by Rotary and other speakers. By getting every agency to work for the betterment of Brainerd, by coordinating the work of service clubs as St. Paul is striving to do, there will be no overlapping of activities.

1925 DISASTROUS YEAR FOR CELEBRITIES

THE first two months of the year have barely rolled along before they gave evidence of the toll of serious illness threatening many famous personages. Here are a few of the great, attacked by various maladies ranging from influenza to more serious diseases:

King George of England, President Ebert of Germany recently operated on, Lloyd George, Premier Mussolini of Italy, Premier Herriot of France, Leon Trotsky of Russia, Sun Yat Sen of China reported dead at one time, Archbishop S. G. Messmer of Milwaukee, Gloria Swanson film star operated on in Paris, Doris Kenyon film star.

NEWSPAPERS of the vicinity are commenting on the fact that Brainerd will face damage suits at the May term of the district court here involving a total of \$38,575.

It is claimed that a long fall in an airplane will restore hearing. One should be careful, however, as an unchecked fall may kill the patient.

JUDGE MCGEE'S death has not been in vain, for it has centered attention on the work piled on the shoulders of any federal judge.

TRUE life means continual progress.

Hanging a Portrait

A portrait, painting or tapestry that is especially endeared to you should be hung alone. It may safely be the center of an entire wall space, with no other picture nearby. Thus full emphasis is given its importance.

Making an Appeal.

Mother—"What a naughty little girl you are, telling fibs like that. You can just go to bed without any supper." Offender—"No, I can't, mom. What about that medicine I've got to take after meals?"—New York Sun and Globe.

Widespread Belief in

Horseshoe as Talisman

The horseshoe is one of the very oldest talismans for wooing good fortune that exists. The belief in its efficacy is held almost all over the world, and has been present since the dawn of history. You find it in Egypt and nailed to the threshold of the tent and wicker wigwams of the nomads of Turkestan.

In medieval England, especially in the southwest, horseshoes were often nailed on church doors to keep out evil spirits and witches. There used to be two huge ones on the south door of the parish church of Ashby-Foville, in Leicestershire, says the Family Herald.

There are records of a number of horseshoes having been nailed up for centuries on the gates of Oakham castle, in Rutland, which was built by Wakelin de Ferrars, son of the first earl. Every nobleman visiting it was made to forfeit a shoe of the horse on which he rode or pay a forfeit of money. Quite a number endured the inconvenience of parting with a shoe rather than pay the small sum.

Probably the oldest continuous display of a horseshoe for luck to be found in Britain is the case of a shoe nailed up at Horseshoe corner, in the city of Lancaster. The first one was cast by the horse of John of Gaunt, when he was riding through the streets nearly six hundred years ago.

The more nails in a "found" horseshoe the greater the luck.

Wilde Well Aware of

Failing of Humanity

Among other amusing stories in his "Memoirs and Adventures," Sir Arthur Conan Doyle relates this characteristic story told him by Oscar Wilde:

"We were discussing the cynical maxim that the good fortune of our friends made us discontented. 'The devil,' said Wilde, 'was once crossing the Libyan desert, and he came upon a spot where a number of small fiends were tormenting a holy hermit. The sainted man easily shook off their evil suggestions. The devil watched their failure and then he stepped forward to give them a lesson. 'What you do is too crude,' said he. 'Permit me for one moment.' With that he whiskered to the holy man. 'Your brother has just been made bishop of Alexandria.' A scowl of malignant jealousy at once clouded the serene face of the hermit. 'That,' said the devil to hisimps, 'is the sort of thing which I should recommend.'"

Must Not Be Separated

Faraday, the great chemist, learned a lesson in boyhood by a very childish experience. As a little lad, humbly earning his bread selling newspapers in the streets, he was waiting outside the office of an Edinburgh paper for the morning issue, and thrust his head and arms through the railings of the iron gate. He was a born metaphysician and began to speculate on which side of the railings he was. "My head and hands are on one side," he said to himself, "and my heart and body are on the other." The gate was opened hastily before he could disengage himself, and the wrench he received taught him, as he said in after life, that all true work required head and heart and hands to be on the same side.

Do Good Work in World

Those to whom a commonplace appears to be extraordinary are rare, but they are precious, since they, and they alone have built up our minds. They are the creators of human intelligence, the wide-eyed individuals who point out to the mass of mankind what has been accepted as a matter of routine. They are the poets, religious leaders, story tellers, philosophers, theologians, artists, scientists, inventors. Commonly unnoticed things excite a strange and compelling curiosity in them, and each new question sets them on a fresh quest. They see where others are blind, hear where others are deaf. They form the noble band of wonderers.—James Harvey Robinson.

Franking Privilege

The privilege of sending and receiving mail free of postage was once enjoyed by the President of the United States, vice president, heads of departments, senators and representatives, and other officials of the government during their official terms. For a time all former presidents and widows of former presidents also had this right, but by an act of 1873 the privilege was abolished. By later acts it was conferred on all officers of the government in the case of official correspondence. In 1895 members of congress were allowed this privilege in their official correspondence.

Alone in His Progress

"Tell me," said the interviewer at the bedside of the aviator who had fallen three thousand feet and hit the earth, "what was your dominating thought as you fell through all that space?"

True to his record for coolness, the aviator lit a cigarette, smiled and said: "Why, I think the thought that impressed me most was that I was about the only thing that wasn't going up."

Making His Peace

Hubert, who had been sent to bed for being naughty, could not get to sleep. At 10 o'clock he crept downstairs and said to his startled mother: "Didn't you say I was not to go to sleep until I had made my peace with my enemies, mummie?" "Yes, dear," was the reply. "Well, I've come down to forgive you and dad."

New Discovery Limbers Up Stiff, Sore, Swollen Joints

Seeks right into tendons and ligaments of your joints—right where the trouble starts—Then blessed comfort comes quickly.

Yes! It's true—the world progresses.

All you have to do nowadays to limber up that stiff, rusty knee joint is to squeeze a half inch of miracle working substance from a tube. Then rub it on the offending part for about a minute or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspapers and go to bed. The chances are that your misbehaving knee joint will lose its "crack" while you are dreaming about the high fences you used to leap when you were a youngster. "And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes

and walk briskly down the street just to show the neighbors that you are not as old as they think you are." Joint-Ease they call this wonder working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint, or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean penetrating prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can, speedily have the kinks taken out of them and work as smoothly as ever.

But Joint-Ease is for bothersome joints, whether in knee, ankle, arch, hip, shoulder, spine or finger, and for that purpose its sale at 60 cents a tube is immense. Johnson's Pharmacy and Economy Drug Co. have a big supply of it and druggists everywhere report a big demand.

Always remember, when Joint-Ease gets in joint misery gets out—quick.—Advt.

YOUR FIRE INSURANCE

THE Duluth Herald brings up a most pertinent matter in home fire insurance and that is: Are you carrying as much fire insurance as you should on your household goods and personal belongings?

And if the answer is frank, and follows a little study, it is something like a hundred to one that it will be "No, I am not."

Most people carry adequate insurance on their household goods, largely because it seems rather a small matter which both the insurance agent and the insured are likely to neglect. In many cases the insurance was taken out many years ago, and carried all this time at the same amount. In the meantime prices have gone up and the cost of replacing the household equipment if it is burned has greatly increased. In the meantime, too, much has been bought; new pieces of furniture, new rugs, new pictures, new books, new bric-a-brac, new dishes, and so on.

Is this new stuff covered by your fire insurance policy? Probably not; ten to one it is not. Here is a profitable exercise for Friend Husband and Friend Wife; take an inventory of the household goods from cellar to garret, and from kitchen to garage, and put a fair price on each item. Foot it up. Compare the total with the total insurance you are carrying on it. Remember that if there were a fire you would have to replace most of it with new.

And if you find your insurance total to be anywhere near seventy-five per cent of actual value that you should carry, you are one in a hundred, maybe one in a thousand.

HUMAN FUEL

UNDER the heading "And Still More Human Fuel," the St. Paul Daily News commented on the recent disaster at Sullivan, Indiana, where a coal mine explosion claimed 51 miners.

It quotes the United States bureau of mines as saying: "Investigations carried on by this bureau for more than 10 years have demonstrated beyond question of doubt that spreading of coal mine explosions can be prevented. Responsibility rests with the mine managements."

But it costs a little money to sprinkle coal mines with rock dust, and that little money might come from profits. Hence we have a price list, the cost of our fuel, such as this:

"Crosby, Minnesota—42 lives.
"Shankstown, Pennsylvania—37 lives.
"Johnson City, Illinois—34 lives.
"Dawson, New Mexico—125 lives.
"Kammerer, Wyoming—100 lives.
And so on! It is the cost of coal.

For the benefit of the St. Paul Daily News, we wish to state that the Crosby mine is an iron mine and no coal is mined there. The commission investigating reported no explosion there.

ALL FORCES COOPERATING

REPRESENTATIVES of all St. Paul service clubs met Tuesday to arrange a plan to boost St. Paul. The meeting was called by the St. Paul Association and was open to all members of service clubs.

More than 800 members were notified by the civic affairs chairmen of the various organizations. Proposals for the betterment of St. Paul were discussed and each civic club was assigned some phase of community work to direct during the coming year. Among the clubs represented were the Ashlar club, Business & Professional Men's association, Conopus club, Cooperative club, Exchange club, Kiwanis club, Lions club, Optimist club, Professional club, St. Paul Association of Office Men, St. Paul Engineers' society, Rotary club, St. Paul Sales Managers' association, Torch club, Town Criers club, Transportation club.

The idea of the cooperation of Brainerd service clubs with the Chamber of Commerce here was brought up at the last meeting of the Rotary club and further elaborated on at a meeting of the Lions, addressed by Rotary and other speakers. By getting every agency to work for the betterment of Brainerd, by coordinating the work of service clubs as St. Paul is striving to do, there will be no overlapping of activities.

1925 DISASTROUS YEAR FOR CELEBRITIES

THE first two months of the year have barely rolled along before they gave evidence of the toll of serious illness threatening many famous personages. Here are a few of the great, attacked by various maladies ranging from influenza to more serious diseases:

King George of England, President Ebert of Germany recently operated on, Lloyd George, Premier Mussolini of Italy, Premier Herriot of France, Leon Trotsky of Russia, Sun Yat Sen of China reported dead at one time, Archbishop S. G. Messmer of Milwaukee, Gloria Swanson film star operated on in Paris, Doris Kenyon film star.

NEWSPAPERS of the vicinity are commenting on the fact that Brainerd will face damage suits at the May term of the district court here involving a total of \$38,575.

It is claimed that a long fall in an airplane will restore hearing. One should be careful, however, as an unchecked fall may kill the patient.

Widespread Belief in

Horseshoe as Talisman

The horseshoe is one of the very oldest talismans for wooing good fortune that exists. The belief in its efficacy is held almost all over the world, and has been present since the dawn of history. You find it in Egypt and nailed to the threshold of the felt and wicker wigwams of the nomads of Turkestan.

In medieval England, especially in the southwest, horseshoes were often nailed on church doors to keep out evil spirits and witches. There used to be two huge ones on the south door of the parish church of Ashby-Foville, in Leicestershire, says the Family Herald.

There are records of a number of horseshoes having been nailed up for centuries on the gates of Oakham castle, in Rutland, which was built by Walselin de Ferrars, son of the first earl. Every nobleman visiting it was made to forfeit a shoe of the horse on which he rode or pay a forfeit of money. Quite a number endured the inconvenience of parting with a shoe rather than pay the small sum.

Probably the oldest continuous display of a horseshoe for luck to be found in Britain is the case of a shoe nailed up at Horseshoe corner, in the city of Lancaster. The first one was cast by the horse of John of Gaunt, when he was riding through the streets nearly six hundred years ago.

The more nails in a "found" horseshoe the greater the luck.

LABOR CHIEF FAVORS HARMONY BETWEEN CHURCHES, UNIONS

BOTH INSTITUTIONS ENDEAVOR TO CREATE HUMAN HAPPINESS, SAYS LYNCH

MODERN INDUSTRIAL STRUGGLE DESERVES CONSIDERATION BY CHURCHES

Indianapolis, Ind., Feb. 25.—Complete sympathy with the movement for closer understanding and friendlier feeling between churches and labor unions was expressed by James M. Lynch, president of the International Typographical Union, in a statement issued here today.

"The modern industrial struggle is well deserving of serious consideration by every institution interested in ethics and human happiness," said Mr. Lynch. "It has ever been a source of disappointment to American labor leaders that so many clergymen have chosen to ignore the case of the working man or, worse still, to applaud the social program of the employer. Fortunately powerful men in the churches are coming to give their attention to the labor movement and consequently to sympathize with the aspirations of organized labor."

"Labor is quick to reciprocate this interest. In New York we find Bishop William T. Manning expressing from his pulpit appreciation of aid offered by organized labor in raising funds for completion of the great cathedral in Toledo, O., the Council of Churches has invited labor leaders to address meetings of the Ministers' Union. Out in Berkeley, Calif., Bishop J. Sanford, preaching at St. Paul's Episcopal church, deprecates the 'disgraceful manner in which the Better America Federation attacks the labor union movement.'"

"Fear is blamed by Bishop Sanford for the unrest and unhappiness in our economic and social life. Each week, the bishop told his hearers, a weekly letter reaches his desk from the 'labor-hating' organization, inveighing against combination of workers in their own defense. 'Such bitter words, so full of hatred,' said the bishop, 'could only create the trouble against which they protest.'"

"With exceptional shrewdness the bishop has laid his finger upon the seat of the social malady. Men live and work together in happiness only when there is a mutual sense of security, and when good will rules. There is a fighting spirit in men that precludes peace while men suffer injustice at the hands of their fellows. The capitalist who hopes to crush labor into humble acceptance of want and defeated aspirations is only heaping fuel on the fires of combativeness. This type of capitalist is usually kept by his personal concerns from gaining an understanding of philosophy, psychology or any other branch of knowledge bearing upon the task he undertakes. It is proper that preachers and all others, whose training and understanding fit them for the job, should show the way."

"And it is gratifying to forward-looking labor leaders, who would like to believe in the erudition and sincerity of clergymen in general, to learn that many preachers are attempting to bring reason to bear on the capital-labor controversy."

"The Rev. Oren H. Baker, pastor of a Baptist church in Morgantown, W. Va., has arisen as a champion of labor's right to organize. In his state some organizations have demanded that labor organizers be driven from the state. 'The church is bound to condemn these proposals of certain business interests,' this minister declares. 'Let it be remembered that individuals cannot maintain harmony with God until they have succeeded in effecting proper adjustments to one another.'"

"Some historians credit Moses with being the first labor leader because Moses arose in behalf of his enslaved

people when he saw an Egyptian boss beat a Jewish workman. Moses slew the boss and stood forth from that time as the champion of a down-trodden and suffering race. The Old Testament is concerned almost wholly with the endeavors of common people to maintain their freedom against the tyranny of the labor exploiter. As for the New Testament, certainly the exponent of wealth-through-exploitation can find little comfort in the words of Christ, who came on earth to relieve the suffering of the many, not to assist a favored or fortunate few in monopolizing life's blessings."

Life's Greatest Lesson

By C. H. Woodward

"I Have Learned to Live"

311 N. Chestnut St., Green Bay, Wisconsin.

"I owe you a debt which I never can pay, because your valuable product, WHOLE GRAIN WHEAT, was a Godsend to me, and besides saving my life, also making a new person of my wife and a wonderful change for the better in our children in many ways. It has left me with the most perfect health and I have learned how to live."

"I would be glad to make a pack-horse of myself and log all the WHOLE GRAIN WHEAT I could carry to all the sick and ailing people I could find, for the harder I would work the happier I would feel."

(Signed) John A. Gibbs.

124 N. Franklin St., Lancaster, Pa.

"In my 60th year a test question has been asked of me:

"Why do I eat?"

"All thru my life until the past two years I would have given the stupid answer: Because I'm hungry; or it's time to eat; or to keep alive; or to be sociable, thinking they were intelligent answers to why do we eat?"

"I have learned the lesson in 48 years of suffering—eye-sight failing, soft and splitting finger nails, constipation, hemorrhoids, or piles, heavy foul breath, indigestion and the use of a laxative every day."

"I've had the experience that Whole Grain Wheat and Thumb Print products have removed with me all health chances."

"It has taken just two years to right me."

"During the past six months for the first time in my life I am enjoying the force of life."

"Just let the world ask me the question today: Why do I eat? I can't explain in flowery words, but I know and can see the forces of why and what I eat."

John H. Trageser.

Family Learns The Secret Of Perfect Health

4440 Nat'l Bridge Rd., St. Louis, Mo.

"It is now two years since my family and I first began eating WHOLE GRAIN WHEAT. My family never experienced better health. My wife and daughter before eating the Wheat, every day or two had taken something for a laxative. My wife had stomach trouble very bad and for relief used baking soda from 4 to 7 times a day for relief. Since eating the Wheat she seems to be entirely free from that trouble."

"I do not lose an opportunity to recommend its value to everyone."

(Signed) H. J. Zimmerman.

WHAT these people have learned you can learn. They have gladly told their experiences that others may learn. They have learned that there are no exceptions to the law of life; that day by day we must replenish the blood stream with the elements which in balanced combination manifest the life forces, or we become deficient and diseased.

Civilized man is living on denatured foods, and civilized man is diseased, because denatured foods destroy life.

Whole Grain Wheat tends to restore normalcy merely and solely because it is a natural food.

Every denatured natural food substance has had the balance relation of the elements it contains upset and destroyed. The poison effect is just as certain, though not so quick acting, as if you take a teaspoonful of iodine, but being less excessive may to a considerable extent be neutralized by the body, because the effect is slower acting, but the accumulated effects of the taking into the body denatured food results in the thing we call disease.

Did you know that only in a drop of normal healthy blood, a handful of fertile earth, and a natural grain of wheat, are to be found the 16 elements of which every living creature is composed?

Food is denatured when some element or part of an element is removed or lost. It may be through milling, refining, or through cooking in the presence of the oxygen of the air, resulting in changing the minerals from their organic form into oxides. This is one of the

greatest discoveries of modern times.

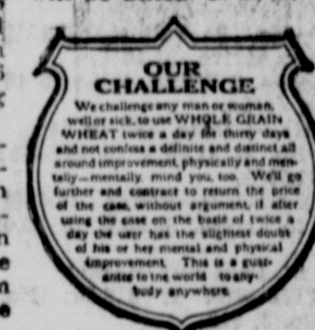

Whole Grain Wheat is the first cooked food civilized man ever ate that has not been denatured in cooking, and is without doubt one of the epoch-making discoveries of the age. As confirming the law of life and demonstrating the cause of disease set forth herein, more than 74 human ailments have responded to the use of this natural food, these ailments ranging in severity from cancer to constipation.

Whole Grain Wheat is not a medicine, in any sense a "cure-all," for it is merely a natural food. Its effects are wholly natural and are simply the result of the user stopping the violation of the law of his being and obeying it by affording replenishment to the blood-stream of the user of all the elements of which the blood is normally composed for the production of normal life-processes.

The use of Whole Grain Wheat reduces cooking and saves much of the drudgery of the kitchen. It makes you feel better every way. But remember you cannot get real results unless you use it regularly. You never tire of bread, nor will you ever tire of Whole Grain Wheat. It is the natural wheat berry just as it comes from the harvest field with nothing added, nothing lost, and nothing taken away, cooked under a new method of cooking that is protected by the United States and Canadian governments, and is the first wheat that has ever been cooked ready to eat that is identical with the raw ripe grain in its constituent elements. It possesses the minerals and the vitamins possessed by the natural grains, and is delicious and sweet as a nut.

LABOR CHIEF FAVORS HARMONY BETWEEN CHURCHES, UNIONS

BOTH INSTITUTIONS ENDEAVOR TO CREATE HUMAN HAPPINESS, SAYS LYNCH

MODERN INDUSTRIAL STRUGGLE DESERVES CONSIDERATION BY CHURCHES

Indianapolis, Ind., Feb. 25.—Complete sympathy with the movement for closer understanding and friendlier feeling between churches and labor unions was expressed by James M. Lynch, president of the International Typographical Union, in a statement issued here today.

"The modern industrial struggle is well deserving of serious consideration by every institution interested in ethics and human happiness," said Mr. Lynch. "It has ever been a source of disappointment to American labor leaders that so many clergymen have chosen to ignore the case of the working man or, worse still, to applaud the social program of the exploiter. Fortunately powerful men in the churches are coming to give their attention to the labor movement and consequently to sympathize with the aspirations of organized labor."

"Labor is quick to reciprocate this interest. In New York we find Bishop William T. Manning expressing from his pulpit appreciation of aid offered by organized labor in raising funds for completion of the great cathedral in Toledo, O., the Council of Churches has invited labor leaders to address meetings of the Ministers' Union. Out in Bakersfield, Calif., Bishop I. Sanford, preaching at St. Paul's Episcopal church, deprecates the 'disgraceful manner in which the Better America Federation attacks the trade union movement'."

"Fear is blunted by Bishop Sanford for the unrest and unhappiness in our economic and social life. Each week, the bishop told his hearers, a weekly letter reaches his desk from the 'labor-hating' organization, inveighing against combination of workers in their own defense. Such bitter words, so full of hatred," said the bishop, "could only create the trouble against which they protest."

"With exceptional shrewdness the bishop has laid his finger upon the seat of the social malady. Men live and work together in happiness only when there is a mutual sense of security, and when good will rules. There is a fighting spirit in men that precludes peace while men suffer injustice at the hands of their fellows. The capitalist who hopes to crush labor into humble acceptance of want and defeated aspirations is only heaping fuel on the fires of combativeness. This type of capitalist is usually kept by his personal concerns from gaining an understanding of philosophy, psychology or any other branch of knowledge bearing upon the task he undertakes. It is proper that preachers and all others, whose training and understanding fit them for the job, should show the way."

"And it is gratifying to forward-looking labor leaders, who would like to believe in the erudition and sincerity of clergymen in general, to learn that many preachers are attempting to bring reason to bear on the capital-labor controversy."

"The Rev. Oren H. Baker, pastor of a Baptist church in Morgantown, W. Va., has arisen as a champion of labor's right to organize. In his state some organizations have demanded that labor organizers be driven from the state. 'The church is bound to condemn these proposals of certain business interests,' this minister declares. 'Let it be remembered that individuals cannot maintain harmony with God until they have succeeded in effecting proper adjustments to one another.'"

"Some historians credit Moses with being the first labor leader because Moses arose in behalf of his enslaved

people when he saw an Egyptian boss beat a Jewish workman. Moses slew the boss and stood forth from that time as the champion of a down-trodden and suffering race. The Old Testament is concerned almost wholly with the endeavors of common people to maintain their freedom against the tyranny of the labor exploiter. As for the New Testament, certainly the exponent of wealth-through-exploitation can find little comfort in the words of Christ, who came on earth to relieve the suffering of the many, not to assist a favored or fortunate few in monopolizing life's blessings."

Life's Greatest Lesson

By C. H. Woodward

"I Have Learned to Live"

124 N. Franklin St.,
Green Bay, Wisconsin.

"I owe you a debt which I never can pay, because your valuable product, WHOLE GRAIN WHEAT, was a Godsend to me, and besides saving my life, also making a new person of my wife and a wonderful change for the better in our children in many ways. It has left me with the most perfect health and I have learned how to live."

"I would be glad to make a pack-horse of myself and lug all the WHOLE GRAIN WHEAT I could carry to all the sick and ailing people I could find, for the harder I would work the happier I would feel."

(Signed) John A. Gills.

124 N. Franklin St.,
Lancaster, Pa.

"In my 60th year a test question has been asked of me: 'Why do I eat?'"

"All thru my life until the past two years I would have given the stupid answers: Because I'm hungry; or it's time to eat; or to keep alive; or to be sociable, thinking they were intelligent answers to why we eat."

"I have learned the lesson in 48 years of suffering—eye-sight failing, soft and splitting finger nails, constipation, hemorrhoids or piles, heavy foul breath, indigestion and the use of a laxative every day."

"I've had the experience that Whole Grain Wheat and Thumb Print products have removed with me all health chances."

"It has taken just two years to right me. 'During the past six months for the first time in my life I am enjoying the force of life.'"

"Just let the world ask me the question today: Why do I eat? I can't explain in flowery words, but I know and can see the forces of why and what I eat."

John H. Tragesser.

Family Learns The Secret Of Perfect Health

4440 Nat'l Bridge Rd.,
St. Louis, Mo.

"It is now two years since my family and I first began eating WHOLE GRAIN WHEAT. My family never experienced better health. My wife and daughter before eating the Wheat, every day or two had taken something for a laxative. My wife had stomach trouble very bad and for relief used baking soda from 4 to 5 times a day for relief. Since eating the Wheat she seems to be entirely free from that trouble."

"I do not lose an opportunity to recommend its value to everyone."

(Signed) H. J. Zimmerman.

WHAT these people have learned you can learn. They have gladly told their experiences that others may learn. They have learned that there are no exceptions to the law of life; that day by day we must replenish the blood stream with the elements which in balanced combination manifest the life forces, or we become deficient and diseased.

Civilized man is living on denatured foods, and civilized man is diseased, because denatured foods destroy life.

Whole Grain Wheat tends to restore normalcy merely and solely because it is a natural food.

Every denatured natural food substance has had the balance relation of the elements it contains upset and destroyed. The poison effect is just as certain, though not so quick acting, as if you take a teaspoonful of lard, but being less excessive may to a considerable extent be neutralized by the body, because the effect is slower acting, but the accumulated effects of the taking into the body denatured food results in the thing we call disease.

Did you know that only in a drop of normal healthy blood, a handful of fertile earth, and a natural grain of wheat, are to be found the 16 elements of which every living creature is composed?

Food is denatured when some element or part of an element is removed or lost. It may be through milling, refining, or through cooking in the presence of the oxygen of the air, resulting in changing the minerals from their organic form into oxides. This is one of the

greatest discoveries of modern times.

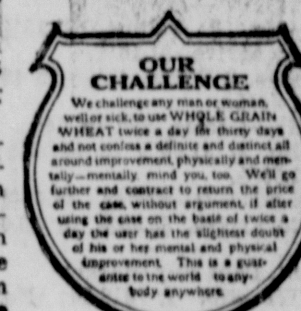

Whole Grain Wheat is the first cooked food civilized man ever ate that has not been denatured in cooking, and is without doubt one of the epoch-making discoveries of the age. As confirming the law of life and demonstrating the cause of disease set forth herein, more than 74 human ailments have responded to the use of this natural food, these ailments ranging in severity from cancer to constipation.

Whole Grain Wheat is not a medicine, in any sense a "cure-all," for it is merely a natural food. Its effects are wholly natural and are simply the result of the user stopping the violation of the law of his being and obeying it by affording replenishment to the blood-stream of the user of all the elements of which the blood is normally composed for the production of normal life-processes.

The use of Whole Grain Wheat reduces cooking and saves much of the drudgery of the kitchen. It makes you feel better every way. But remember you cannot get real results unless you use it regularly. You never tire of bread, nor will you ever tire of Whole Grain Wheat. It is the natural wheat berry just as it comes from the harvest field with nothing added, nothing lost, and nothing taken away, cooked under a new method of cooking that is protected by the United States and Canadian governments, and is the first wheat that has ever been cooked ready to eat that is identical with the raw ripe grain in its constituent elements. It possesses the minerals and the vitamins possessed by the natural grains, and is delicious and sweet as a nut.

SWEDISH STATESMAN BRANTING MOURNED

FORMER PREMIER WAS LEADER OF SOCIALIST PARTY—WON NOBEL PRIZE

Stockholm, Feb. 25.—Flags were at half mast throughout the country today in honor of Hjalmar Branting, former premier, who died shortly after noon yesterday. All classes of people, the opponents of the former premier, as well as his followers, expressed their regret at the passing of one who was regarded as among Sweden's greatest statesmen.

Branting had been ill for several weeks and serious complications developed during the last few days.

Gall stone inflammation set in while his vitality was already ebbing.

One of the political effects of his death is expected to be the development of a tension—if not a complete split—within the ranks of the Socialist party, which has been held together by the great force of Branting's personality. The former premier's nearest followers were Minister of Defense Hansson, and former Minister of Finance Wilhelm Thorsson. Both of these men belong to the more conservative element of the party, while Rickard Sandler, present head of the cabinet, and Minister of Finance Ernst Vigfors are known as being radical in tendency. For some time there had been a strong feeling among a large portion of the party that the progress to the left was too slow, but Branting's influence and the feeling that he was obtaining all that could be obtained for the party, prevented the spread of communistic influence to any great extent. He was successful on several occasions in holding the party together and the opinion was expressed in many quarters today that it was unlikely a successor could be found who could exercise a similar influence.

The former premier had been ill since November 30, when he contracted influenza. At the time he expected to go to the Rome meeting of the League of Nations council. He later contracted thrombosis and on January 24 resigned as premier. Little hope of his survival has been held out since February 8, when the gall stone trouble appeared.

He is survived by a widow, Anna Branting, who for 40 years has been well known as an authoress; a son, George, a lawyer; a daughter, Sonja, also a lawyer, and a brother, Axel, a journalist.—Minneapolis Tribune.

Further Cut in 1924 Income Tax Proposed

Washington, Feb. 25.—A further reduction of 25 per cent in the tax on personal incomes for 1924 was proposed in a resolution today by Representative Ackerman, republican, New Jersey.

STOP THAT BACKACHE!

Many Brainerd Folks Have Found the Way

Is a dull, nerve-racking backache wearing you out? Do you feel older and slower than you should? Are you tired, weak and nervous; find it impossible to be happy, or enjoy the good times around you? Then there's something wrong and likely it's your kidneys. Why not get at the cause? Use Doan's Pills—a stimulant diuretic to the kidneys. Your neighbors recommend Doan's. Read what this Brainerd resident says:

Carl Sorman, 709 S. Broadway, says: "My back pained continually. Mornings I was stiff and sore and I couldn't stoop without getting a knife-like jab across my kidneys. My kidneys acted too frequently and caused me annoyance. I used Doan's Pills from Skauge's Drug Co. and they fixed me up in fine shape."

Woman Thinks She Can't Talk Enough

"I had gall stones for 14 years and suffered severely from gas, colic and indigestion. Doctors wanted me to go to the hospital, but I took Mayr's Wonderful Remedy instead, and am now feeling fine and better than I ever did. I can't talk enough about this remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy, Economy Drug Co. and druggists everywhere.—Adv.

DRINK WATER TO HELP WASH OUT KIDNEY POISON

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water — you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

MARSHAL HELD AS BOOTLEGGER

DAYTON, MINN., OFFICIAL, ARRESTED BY DEPUTY SHERIFFS, IS ARRAIGNED

Robbinsdale, Feb. 25. — Arthur Blais, town marshal of Dayton, Minnesota, charged with having sold liquor at a Washington's birthday dance, was arraigned before E. D. Chandall, justice of peace at Robbinsdale, Tuesday morning.

Blais entered a plea of not guilty and was held to await trial in Hennepin county district court. He furnished \$750 bail.

Arrest of Marshal Blais followed a report received Monday night by Sheriff Earle Brown that liquor was being sold dance nights at Dayton. Sheriff Brown detailed Deputies Arthur Munson, Howard Munson and Jack Kittridge to investigate.

Blais was taken into custody at the town hall of Dayton by deputy sheriffs and brought to the Hennepin county jail. The deputies charge that Blais sold them a bottle of liquor.

DON'T minimize the importance of lubrication. Reports show that only 2% of the operating expense of your car is chargeable to oil—but, this 2% intimately affects, 1st, depreciation 30%, 2nd, repairs 30%, and 3rd, fuel 15%.

See that the oil level in your crankcase is maintained. Watch your lubricating oil, just as you watch the air in your tires, your gasoline supply and the water in your radiator.

Because the engine does not send out a loud distress call for oil, do not become indifferent to its needs.

The damage done by improper or insufficient lubrication is great. It will cost you more in the end than the damage done by driving on a flat tire or with an empty radiator. But, it is slower in calling itself to your attention.

Use Polarine exclusively—it will pay high dividends. It saves wear and tear; reduces repair bills and increases the mileage you get from a gallon of gasoline.

"The Polarine Habit" will greatly decrease your operating cost and largely increase your motor efficiency.

Drain your crankcase every 500 miles and refill with fresh Polarine.

SWEDISH STATESMAN BRANTING MOURNED

FORMER PREMIER WAS LEADER OF SOCIALIST PARTY—WON NOBEL PRIZE

Stockholm, Feb. 25.—Flags were at half mast throughout the country today in honor of Hjalmar Branting, former premier, who died shortly after noon yesterday. All classes of people, the opponents of the former premier, as well as his followers, expressed their regret at the passing of one who was regarded as among Sweden's greatest statesmen.

Branting had been ill for several weeks and serious complications developed during the last few days.

Gall stone inflammation set in while his vitality was already ebbing.

One of the political effects of his death is expected to be the development of a tension—if not a complete split—within the ranks of the Socialist party, which has been held together by the great force of Branting's personality. The former premier's nearest followers were Minister of Defense Hansson, and former Minister of Finance Wilhelm Thorsson. Both of these men belong to the more conservative element of the party, while Rickard Sandler, present head of the cabinet, and Minister of Finance Ernst Vigfors are known as being radical in tendency. For some time there had been a strong feeling among a large portion of the party that the progress to the left was too slow, but Branting's influence and the feeling that he was obtaining all that could be obtained for the party, prevented the spread of communistic influence to any great extent. He was successful on several occasions in holding the party together and the opinion was expressed in many quarters today that it was unlikely a successor could be found who could exercise a similar influence.

The former premier had been ill since November 30, when he contracted influenza. At the time he expected to go to the Rome meeting of the League of Nations council. He later contracted thrombosis and on January 24 resigned as premier. Little hope of his survival has been held out since February 8, when the gall stone trouble appeared.

He is survived by a widow, Anna Branting, who for 40 years has been well known as an authoress; a son, George, a lawyer; a daughter, Sonja, also a lawyer, and a brother, Axel, a journalist.—Minneapolis Tribune.

STOP THAT BACKACHE!

Many Brainerd Folks Have Found the Way

Is a dull, nerve-racking backache wearing you out? Do you feel older and slower than you should? Are you tired, weak and nervous; find it impossible to be happy, or enjoy the good times around you? Then there's something wrong and likely it's your kidneys. Why not get at the cause? Use Doan's Pills—a stimulant diuretic to the kidneys. Your neighbors recommend Doan's. Read what this Brainerd resident says:

Carl Sorman, 709 S. Broadway, says: "My back pained continually. Mornings I was stiff and sore and I couldn't stoop without getting a knife-like jab across my kidneys. My kidneys acted too frequently and caused me annoyance. I used Doan's Pills from Skague's Drug Co. and they fixed me up in fine shape."

"I had gall stones for 14 years and suffered severely from gas, colic and indigestion. Doctors wanted me to go to the hospital, but I took Mayr's Wonderful Remedy instead, and am now feeling fine and better than I ever did. I can't talk enough about this remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. DRINK WATER TO HELP WASH OUT KIDNEY POISON

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water — you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.—Advt.

There Is So Much That Is Pleasingly New In The New Garments We are Showing for Wear this Spring

And Style is the foremost item in every garment. Women discard garments which scarcely show any wear for new ones that they may have the latest Dame fashion has decreed for women's wear.

Our store is valuable to you in that we carefully study these styles and have these styles for your selection at prices you will consider most reasonable. That is the only reason for asking your patronage.

The Virtue of Our Ensemble Suits

Of course you have noticed the attractiveness of a costume which is thoroughly matched in color. This is one of the main virtues of our ensemble suits. The pleasing effort of a coat and dress which match perfectly stand out as so different. It remains an easy task to complete the color scheme with the hat and the hose. Nor is this expensive. Ensemble suits at \$29.75, \$50.00 and up.

The New Dresses are Remarkably Attractive

Last season women complained that there was so little change in style and their complaint was not without foundation. But this season there is such a wealth of attractive new styles. The new colors alone is a pleasant innovation. Then those pretty features such as the flare bottoms, the pleasing apron effects, and the use of figured materials makes the dresses so different. They win your approval at once.

Coats Such as Command Attention

Perhaps the most striking feature of the new coats is the color. It has been many seasons since so much color has been used. But who does not approve this feature? We, in this climate with long winters certainly welcome a change and the color is entirely in keeping with the change we desire at spring time. But color is not the only feature. There is more fullness in the coats; they are more trimmed and the type of trimming is pleasing. The linings are gorgeous.

There Is So Much That Is Pleasingly New In The New Garments We are Showing for Wear this Spring

And Style is the foremost item in every garment. Women discard garments which scarcely show any wear for new ones that they may have the latest Dame fashion has decreed for women's wear.

Our store is valuable to you in that we carefully study these styles and have these styles for your selection at prices you will consider most reasonable. That is the only reason for asking your patronage.

The Virtue of Our Ensemble Suits

Of course you have noticed the attractiveness of a costume which is thoroughly matched in color. This is one of the main virtues of our ensemble suits. The pleasing effort of a coat and dress which match perfectly stand out as so different. It remains an easy task to complete the color scheme with the hat and the hose. Nor is this expensive. Ensemble suits at \$29.75, \$50.00 and up.

The New Dresses are Remarkably Attractive

Last season women complained that there was so little change in style and their complaint was not without foundation. But this season there is such a wealth of attractive new styles. The new colors alone is a pleasant innovation. Then those pretty features such as the flare bottoms, the pleasing apron effects, and the use of figured materials makes the dresses so different. They win your approval at once.

Coats Such as Command Attention

Perhaps the most striking feature of the new coats is the color. It has been many seasons since so much color has been used. But who does not approve this feature? We, in this climate with long winters certainly welcome a change and the color is entirely in keeping with the change we desire at spring time. But color is not the only feature. There is more fullness in the coats; they are more trimmed and the type of trimming is pleasing. The linings are gorgeous.

DAY OF PRAYER FOR MISSIONS

To Be Held at Methodist Church on Friday Afternoon at 3 O'clock

The annual Day of Prayer for Missions will be held at the Methodist church on Friday afternoon, February 27th, at 3 o'clock.

This day has been set apart by the Federation of Women's Boards of Foreign Missions of North America and the Council of Women for Home Missions. They are the two great co-operating agencies uniting the missionary women of America.

The offering will be used for the interdenominational work among Farm and Cannery Migrants, Chris-

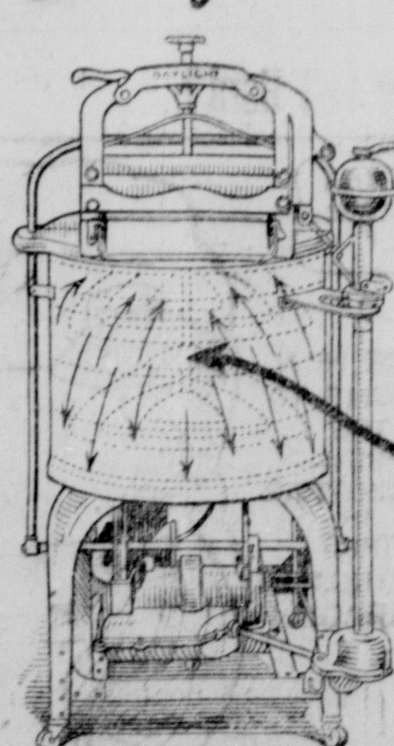

tian Literature for Women and Children in Mission Fields and the Women's Union Christian Colleges of the Orient.

This is an interdenominational service of worship and intercession to which all interested in the extension of the Kingdom are invited. There has been a good program provided with special music.

MAGNATES WANT TO GRAB SPRING COIN ELKS TOURNEY

By HENRY L. FARRELL,
(United Press Sports Editor)

New York, Feb. 25.—Dan Johnson's suggestion that pennant-winning teams be prohibited from making a spring exhibition trip together has resulted in numerous protests from within and without the baseball family. Johnson's suggestions always have a way of arousing criticism from certain quarters, but in this case the protest was more general.

In making his suggestion, Johnson said that it would cheapen the world's series and decrease interest in the real fall series. Perhaps he is right. He doesn't want baseball cheapened and neither do the club owners, because the only way baseball can really be cheapened has always been avoided carefully by the magnates. The price of tickets remains the same.

Perhaps Johnson is right that a spring world's series played between the major league champions would not be good for baseball. No one who is familiar with the ways of baseball players would think that the players would be as keen for victory on an exhibition tour as they are in a world's series when about \$4,000 a piece, representing the difference between a winner's and loser's share is at stake. A long series of games might result in some hippodroming.

Players have grumbled ever since the club owners found that they could pick up a lot of money by engaging in a flock of exhibition games on the way north from the spring training camps. The players get nothing for their labor and the hops from town to town are not designed for comfort or convenience. No player is going to risk injury in an exhibition game that might put him out for the season or end his career in the big leagues. The players also may ask why two champion teams should be permitted to play an exhibition series when pennant-winners are not allowed to barn-storm as a team in the fall, when they could make some money for themselves.

There is a silly argument being advanced that baseball belongs to the public and that the residents of towns far distant from the big-time circuits have a right to see the champion teams in action. When did baseball ever belong to the public and what of it? Baseball belongs to the major league club owners. They make the rules and set the prices.

Club owners like to make the public believe that baseball is the people's game, but you go up to the ticket office before a game and ask for a ticket to see your game, but be sure and duck fast when you do it. The club owners do not arrange spring exhibition trips as a missionary idea. They do it for the money that they can get out of it and you can't blame them for that, but they ought to admit it and not hide behind sentiment.

AITKIN TEAM DEFEATS CLOQUET LEGION FIVE

Aitkin, Feb. 25.—Aitkin Co. B. basketball team stepped into the lead for the district championship, defeating the Cloquet Legion team by a score of 31 to 24 on the local floor. The game was one of the most interesting played here this year, both teams being supported by hundreds of rooters.

More than 1,000 spectators, estimated as the largest crowd that ever attended a local game, were present. The game decides a rubber with Cloquet, in favor of Aitkin, the latter team having won a game played Jan. 22, and losing to Cloquet Feb. 2.

The Aitkin team has played 16 games to date, losing one and winning 15. Two games remain to be played with the Hibbing Aces Feb. 26, and with Two Harbors, March 2.

700 ATHLETES ENTERED IN ILLINI RELAY MEET

Urbana, Ill., Feb. 25.—Seven hundred athletes are now entered in the Illinois relay carnival Saturday. Late entries were received from Nebraska, Purdue, Haskell Indians and Emporia state teachers college. The University of Pennsylvania is undecided as to whether it will run its mile or two-mile relay team.

WARREN AND ARIE WIN IN TRAP SHOOT

Chicago, Feb. 25.—W. G. Warren, Chicago, won the 100-target distance handicap event. Mark Arie, Champaign, Ill., took the 50-target sliding handicap at the final day's shooting of the midwinter trapshooting tourney at the Lincoln Park Gun club. Warren's score was 79 and Arie's was 46.

"Feeling Fine," Says 'Red' Grange, Grid Star

Richmond, Mich., Feb. 25.—"Feeling fine, and expect to get away from here in a day or two," said Harold (Red) Grange, Illinois football star, today. He has been laid up with the mumps here for the past three weeks. "I've a lot of studying to do to catch up."

(By United Press)
Saranac Lake, N. Y., Feb. 25.—Christy Mathewson, former New York Giant pitching star, ranked by John McGraw as the greatest of all times, spends his time here when he is not working at his job as president of the Boston Braves. Mathewson came here several years ago broken with tuberculosis but he beat the disease and is now cured.

NEW AMATEUR ICE CHAMPION

Speed skating is almost as fierce with its champion as the good old Scottish game of golf.

Each year some new flash bobs up. Upsetting the dope is a favorite pastime among our best ice skaters.

The latest phenom is Francis Allen, holder of the international amateur outdoor speed skating championship. Recently Allen added further laurels by winning the American diamond trophy and the national title at Lake Placid, N. Y.

Allen finished with a total of 80 points, just enough to top Charles Gorman of St. John, N. B., defending champion.

Allen, who hails from Chicago, triumphed over one of the classiest fields ever entered in the Lake Placid classic.

Ritola Charged With Failing to Show Up

Boston, Mass., Feb. 25.—Complaining that Willie Ritola, Finnish running star, had failed to appear after accepting \$40 expense money, officials of the American Legion asked the A. A. U. to suspend him indefinitely. Ugo Frigerio, Olympic walking champion, made a new record of 18:20 2-5 for 4,000 meters. Joe Ray, Chicago, won the mile race in 4:31 3-5.

ALEX KUBITSCHKEK, SR. ROLLS PERFECT SCORE

St. Paul, Feb. 25.—Rolling in a match with three friends, Alex Kubitschek, Sr., bowled a perfect score at the St. Bernard alleys last night. He rolled three games of 246, 215 and 300 for a grand total of 761.

Thrilling Drama of Life in South Seas and Frisco is Coming

Critics were convinced when the trade journals announced the purchase of the picture rights to the Robert W. Service novel, "The Roughneck" by William Fox, that he had a valuable addition to his season's productions. The fame of the author, the extensive selling of the book and the unusual dramatic character of the story all presaged a photoplay sensation.

The later announcement of the stellar cast with George O'Brien in the leading role supported by Billie Dove, increased the interest.

"The Roughneck" is a big 8-reel special which tells an unusual love romance of the South Seas in a thrilling manner. It was directed by John Conway from the scenario of Charles Kenyon and is coming to the Lyceum Theatre Thursday and Friday.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, say well-known druggists here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your youthful appearance within a few days.—Advt.

The price of tickets remains the same.

Perhaps Johnson is right that a spring world's series played between the major league champions would not be good for baseball. No one who is familiar with the ways of baseball players would think that the players would be as keen for victory on an exhibition tour as they are in a world's series when about \$4,000 a piece, representing the difference between a winner's and loser's share is at stake. A long series of games might result in some hippodroming.

Players have grumbled ever since the club owners found that they could pick up a lot of money by engaging in a flock of exhibition games on the way north from the spring training camps. The players get nothing for their labor and the hops from town to town are not designed for comfort or convenience. No player is going to risk injury in an exhibition game that might put him out for the season or end his career in the big leagues. The players also may ask why two champion teams should be permitted to play an exhibition series when pennant-winners are not allowed to barn-storm as a team in the fall, when they could make some money for themselves.

There is a silly argument being advanced that baseball belongs to the public and that the residents of towns far distant from the big-time circuits have a right to see the champion teams in action. When did baseball ever belong to the public and what of it? Baseball belongs to the major league club owners. They make the rules and set the prices.

Club owners like to make the public believe that baseball is the people's game, but you go up to the ticket office before a game and ask for a ticket to see your game, but be sure and duck fast when you do it. The club owners do not arrange spring exhibition trips as a missionary idea. They do it for the money that they can get out of it and you can't blame them for that, but they ought to admit it and not hide behind sentiment.

AITKIN TEAM DEFEATS
CLOQUET LEGION FIVE

Aitkin, Feb. 25.—Aitkin Co. B. basketball team stepped into the lead for the district championship, defeating the Cloquet Legion team by a score of 31 to 24 on the local floor. The game was one of the most interesting played here this year, both teams being supported by hundreds of rooters.

More than 1,000 spectators, estimated as the largest crowd that ever attended a local game, were present. The game decides a rubber with Cloquet, in favor of Aitkin, the latter team having won a game played Jan. 22, and losing to Cloquet Feb. 2.

The Aitkin team has played 16 games to date, losing one and winning 15. Two games remain to be played with the Hibbing Aces Feb. 26, and with Two Harbors, March 2.

700 ATHLETES ENTERED
IN ILLINI RELAY MEET

Urbana, Ill., Feb. 25.—Seven hundred athletes are now entered in the Illinois relay carnival Saturday. Late entries were received from Nebraska, Purdue, Haskell Indians and Emporia state teachers college. The University of Pennsylvania is undecided as to whether it will run its mile or two-mile relay team.

WARREN AND ARIE
WIN IN TRAP SHOOT

Chicago, Feb. 25.—W. G. Warren, Chicago, won the 100-target distance handicap event. Mark Arie, Champaign, Ill., took the 50-target sliding handicap at the final day's shooting of the midwinter trapshooting tourney at the Lincoln Park Gun club. Warren's score was 79 and Arie's was 46.

"Feeling Fine," Says
"Red" Grange, Grid Star

Richmond, Mich., Feb. 25.—"Feeling fine, and expect to get away from here in a day or two," said Harold (Red) Grange, Illinois football star, today. He has been laid up with the mumps here for the past three weeks. "I've a lot of studying to do to catch up."

(By United Press)
Saranac Lake, N. Y., Feb. 25.—Christy Mathewson, former New York Giant pitching star, ranked by John McGraw as the greatest of all times, spends his time here when he is not working at his job as president of the Boston Braves. Mathewson came here several years ago broken with tuberculosis but he beat the disease and is now cured.

NEW AMATEUR
ICE CHAMPION

Speed skating is almost as fickle with its champion as the good old Scottish game of golf.

Each year some new flash bobs up. Upsetting the dope is a favorite pastime among our best ice skaters.

The latest phenom is Francis Allen, holder of the international amateur outdoor speed skating championship. Recently Allen added further laurels by winning the American diamond trophy and the national title at Lake Placid, N. Y.

Allen finished with a total of 80 points, just enough to top Charles Gorman of St. John, N. B., defending champion.

Allen, who hails from Chicago, triumphed over one of the classic fields ever entered in the Lake Placid classic.

Ritola Charged With
Failing to Show Up

Boston, Mass., Feb. 25.—Complaining that Willie Ritola, Finnish running star, had failed to appear after accepting \$40 expense money, officials of the American Legion asked the A. A. U. to suspend him indefinitely. Ugo Frikerio, Olympic walking champion, made a new record of 18:20 2-5 for 4,000 meters. Joie Ray, Chicago, won the mile race in 4:31 3-5.

ALEX KUBITSCHKE, SR.
ROLLS PERFECT SCORE

St. Paul, Feb. 25.—Rolling in a match with three friends, Alex Kubitschke, Sr., bowled a perfect score at the St. Bernard alleys last night. He rolled three games of 246, 215 and 300 for a grand total of 761.

Photoplay Backed for Local House is Interesting Treatise on Problem of Free Love

Shirley Mason's latest starring venture, "That French Lady," which comes to the Lyceum Theatre tonight only, deals with a problem of society love.

Thrilling Drama of Life in South Seas and Frisco is Coming

Critics were convinced when the trade journals announced the purchase of the picture rights to the Robert W. Service novel, "The Roughneck," by William Fox, that he had a valuable addition to his season's productions. The fame of the author, the extensive selling of the book and the unusual dramatic character of the story all presaged a photoplay sensation.

The later announcement of the stellar cast with George O'Brien in the leading role supported by Billie Dove, increased the interest.

"The Roughneck" is a big 8-reel special which tells an unusual love romance of the South Seas in a thrilling manner. It was directed by John Conway from the scenario of Charles Kenyon and is coming to the Lyceum Theatre Thursday and Friday.

Heart Beats Photographed

The cardiograph, a new electrical instrument, is being used by quite a few heart specialists in the big hospitals today. Every beat and tremor of the heart may be photographed by it. It works on the principle that every movement of the heart generates an electrical current.

OUCH! LAME BACK.
RUB LUMBAGO OR
BACKACHE AWAY

Kidneys cause backache? No! Listen! Your backache is caused by lumbago, sciatica, or a strain, and the quickest relief is soothing, penetrating St. Jacobs Oil. Rub it right on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of St. Jacobs Oil from your druggist and limber up. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

Rub old, honest St. Jacobs Oil whenever you have sciatica, neuralgia, rheumatism or sprains, as it is absolutely harmless and doesn't burn the skin.—Advt.
